

POKHARA UNIVERSITY

Level: Bachelor
Programme: BE
Course: Research Fundamentals

Semester: Fall

Year : 2024
Full Marks : 100
Pass Marks : 45
Time : 3 hrs.

Candidates are required to give their answers in their own words as far as practicable.

The figures in the margin indicate full marks.

Attempt all the questions.

1. a) What do you mean by research? Explain its significance in the field of Computer Science and Engineering. 7
b) What are the 6 P's of the Research? Explain. 8
2. a) Briefly describe the different steps involved in a research process. 7
b) What are the objectives of conducting a literature review in research? Describe the process of conducting a systematic literature review. 8
3. a) Define plagiarism in the context of academic research and discuss its consequences. 7
b) What is the importance of data visualization in quantitative research? Explain any four data visualization techniques. 8

OR

Discuss any two strategies of data generation in detail.

4. a) Explain the responsibilities of an ethical researcher during research conduction. 8
b) Who are the Research Participants? Why understanding of legal aspect of research is important? Explain in detail. 7
5. a) How does a well-written proposal contribute to the success of a research project? Explain in detail. 7
b) Why is Research Proposal needed? Elaborate the things that are mentioned in the Methodology section of Research Proposal. 8
6. a) What information should be include while writing an Abstract of a research paper? 7

OR

Define a research report and explain why it is an essential part of the research process.

- b) Illustrate the way of writing citations and references in IEEE style with examples. 8

7. Write short notes on: (Any two)

- a) Action Research
- b) Ethnography
- c) Descriptive Research

2x5

POKHARA UNIVERSITY

Level: Bachelor	Semester: Fall	Year : 2025
Programme: BE		Full Marks : 100
Course: Research Fundamentals		Pass Marks : 45
		Time : 3 hrs.

Candidates are required to give their answers in their own words as far as practicable.

The figures in the margin indicate full marks.

Attempt all the questions.

1. a) How do you define research? What are the specific features of research? Elaborate in detail. 8
- b) What are the types of research? Explain each with their characteristics and applications. 7
2. a) What is the role of literature review? How do you organize the literature review? Explain. 7

OR

A bank wants to conduct research to evaluate the user experience of its mobile banking application. Suggest two suitable research strategies for this context and explain in brief.

- b) What do you understand by data collection? Explain the various methods of data collection with example. 8
3. a) What do you mean by research strategy? Write down the difference between case study and ethnographic study with suitable examples. 8
- b) What is Quantitative Research? What are the various data analysis techniques for Quantitative Research? 7

OR

What do you mean by the conceptual framework of a research process model? Discuss the importance of framework in research.

4. a) Who is an ethical researcher? Explain the responsibilities of an ethical researcher with examples. 8
- b) What are the rights of people directly involved in the research process? Explain. 7
5. a) What is a research proposal? Explain the need of a research proposal. 7
- b) Explain about the components of research proposal. 8

6. a) What are the components of a research report? Explain the importance of result and discussion in a report. 7
- b) How does a well-written report help future researcher? Also discuss the importance of report writing in research. 8
7. Write short notes on: (**Any two**) 2×5
- a) Plagiarism
- b) IEEE style
- c) 6 P's of research
